

Viadux supplies products and services to a variety of industries including water and construction sectors. It recognises the need to implement business objectives that have sustainable and positive impacts on the environment

To achieve its objectives, Viadux will;

- *Establish and Maintain an Environmental Management System in accordance with ISO 14001 to ensure ongoing environmental performance and compliance.*
- *Adhere to all contract conditions, relevant legislation, regulatory requirements and other commitments to which the company subscribes.*
- *Regularly review our business operations to identify and implement opportunities for environmental improvement and innovation.*
- *Educate and empower our workforce on key environmental issues, management controls and their associated responsibilities to foster a culture of environmental awareness.*
- *Strive to conserve natural resources, reduce waste and carbon emissions, prevent pollution, and minimise environmental harm associated with our operations, products and services.*
- *Set clear environmental objectives and targets, monitor progress, and communicate results to relevant stakeholders regularly to ensure continuous improvement.*
- *Ensure ongoing compliance with all relevant statutory and other obligations, standards, specifications, and codes of practice, while striving to exceed industry best practices.*
